

LUXORJET

1. White colour as a background on the whole surface of the glass trophy
2. White colour as a background under the colour pixels
3. Slightly transparent colour print (without a white colour)

Tips when preparing the artwork by yourself

LUXORJET

If the coloured background has to reach the edge of the glass, extend it beyond the outline of the glass 8 mm on each side.

minimum resolution for illustrations or photos 300 dpi

The artwork should be prepared in CMYK palette

external outline of the glass - TEMPLATE please do not change the color and thickness of the line

all fonts converted to curves

smallest font used 8 pt

minimum thickness of lines used in the design 0.2 mm

! Because of manual processing of the glass trophies, template may slightly differ from the final product.

Please note that the glass has a slight green tint.

It may have a minor effect on the final colour of the print.

G036

an area where essential elements should be placed, i.e. text, logo, etc.

ENGRAVING

Tips when preparing the artwork by yourself

The diagram shows a grey glass trophy template with a large white rectangular area for engraving. A red line outlines the engraving area, and a red arrow points from the text specifications to this area. The text specifications are listed in a white box on the left. The engraving area is labeled 'engraving area' in bold black text. The trophy is labeled 'G036' in large green text. A red exclamation mark icon is located at the bottom left of the diagram.
