

# LUXORJET

- 1. White colour as a background on the whole surface of the glass trophy
- 2. White colour as a background under the colour pixels
- 3. Slightly transparent colour print (without a white colour)

### Tips when preparing the artwork by yourself

LUXORJET

If the coloured background has to reach the edge of the glass, extend it beyond the outline of the glass 8 mm on each side

minimum resolution for illustrations or photos 300 dpi

external outline of the glass - TEMPLATE please do not change the color and thickness of the line

all fonts converted to curves

smallest font used 8 pt

minimum thickness of lines used in the design 0.2 mm

! Because of manual processing of the glass trophies, template may slightly differ from the final product.

an area where essential elements should be placed, i.e. text, logo, etc.

A diagram of a rectangular glass trophy template. It features a light blue background with a dashed magenta border. Inside, there is a red text block that reads "Please note that the glass has a slight green tint." followed by a smaller line of text: "It may have a minor effect on the final colour of the print." A small circle is located at the bottom center of the dashed border. A red arrow points from the "all fonts converted to curves" tip to the text, and a magenta arrow points from the "extend beyond the outline" tip to the dashed border.

M52A

A diagram of a rectangular glass trophy template, similar to M52A but with a slightly different internal layout. It has a light blue background and a dashed magenta border. The red text "Please note that the glass has a slight green tint." is centered, followed by "It may have a minor effect on the final colour of the print." A small circle is at the bottom center of the dashed border.

M52B

A diagram of a rectangular glass trophy template, similar to M52A and M52B but with a different internal layout. It has a light blue background and a dashed magenta border. The red text "Please note that the glass has a slight green tint." is centered, followed by "It may have a minor effect on the final colour of the print." A small circle is at the bottom center of the dashed border.

# ENGRAVING

### Tips when preparing the artwork by yourself

external outline of the glass - TEMPLATE please do not change the color and thickness of the line

all fonts converted to curves

smallest font used 8 pt

minimum thickness of lines used in the design 0.2 mm

laser engraving area

we only use vector objects (inscriptions, logos, characters )

the pattern for engraving will be prepared in grey using 70 % black in C M Y K scale

when filling with paint, please specify colour (paint palette in separate file)

distance of the lowest inscription from the base 20 mm

ENGRAVING

! Because of manual processing of the glass trophies, template may slightly differ from the final product.

A diagram of a rectangular glass trophy template for engraving. It has a light grey background with a red border. The top left corner is labeled "obszar graweru". In the center, there is a logo with the letters "ABZ" and "A D E M S T Z" below it. Below the logo, the text "Abr Brab" is written in a large, stylized script. Below this, there is a horizontal line followed by the text "Naskjf jsndfn sdf nadek nad od sjdsd nsjsuwwer de sewqiom heswrt nadoi shed desmil mowememaw nad Tond." At the bottom left, it says "Miasteczko Wielkie, 21.01.2011 r." A small circle is at the bottom center of the red border.
